On June 27th, 2006 a dedicated event at the European Parliament in Brussels, Building Altiero Spinelli, Room A1E-1 (1st floor tower E) from 10:30 to 13:00 was organised. A selection of project participants illustrated the project results to the invited audience. The participants to this event were decision-makers at private and public level as well as Parliament members for a total of 29 people.

The event illustrated the Position Paper and the Research Agenda resulting from the project discussion groups. A presentation in ppt was shown by the speakers.

The event resulted in an interesting discussion on the potentialities of e-platforms and on the best future research to be conducted in order to make e-platforms become true.
